## Professional Profile

### Graphic Designer & Web Developer

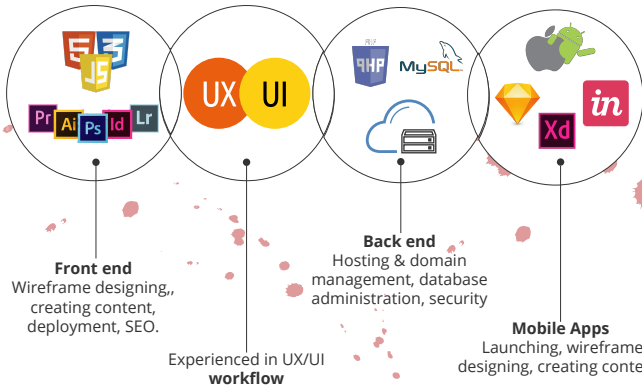

Content Creator | Illustrator | Photographer

I am a Graphic Designer and a Full Stack Web Developer based in Mexico, with more than 5 years of experience. With a portfolio that includes logos, corporate identity, community management, social media analytics, web development focused on responsive design (mobile-first), using all kinds of tech like HTML, CSS, JS, dependencies like bootstrap, jQuery and more, knowledge in backend and UX/UI area, with methods like SCRUM, Agile, etc. Also have experience with mobile apps development, digital multimedia, illustration, photography and editorial design.

Fast learner, I'm constantly learning new techniques and software in order to offer my clients the best solution for their needs. I love what I do and each project is a new challenge that pushes me to become a better designer. Other interests include photography, video, travelling, skilled in the music business (execution, production and management), also Martial arts & Fitness Training.

\*Available to Travel
