Summary

Efficient front-end Developer with over 5 years of experience. Mostly focused on HTML, CSS3, jquery and JavaScript. Excellent organizational abilities both individually and in a team. Currently involved in developing web applications remotely with a group of people across the country.

Work experience

Front-end Developer & UI designer

Honey Mustard

May 2019 - Currently

Was offered a position back at Honey Mustard as a Front-end developer, developing the UI of web applications with Vue.js and scss working with the back-end team using Git. Also developing basic websites using html or php, cascade styling, animations and using Gulp for the workflow.

Front-end Developer

Nexta Technology Services

Jan 2019 - May 2019

Front-end development with AngularJs for Java applications. Support to the UI department with web layouts using HTML, CSS, JavaScript and Gulp for the workflow.

Front-end Developer

Faw Studio

Jun 2018 - Dec 2018

Developed websites using sometimes Wordpress and sometimes HTML, CSS and JavaScript and Gulp for the workflow. Also, developed e-commerce using Shopify creating the clients' own template. Worked with a team to develop the studio's website.

Web Developer

Buró Creativo

May 2017 - May 2018

Developed sites with Wordpress and Landing Pages with HTML and CSS, also developed e-commerce using Woo commerce . Gave support to clients regarding E-mails and websites being down. Made the department and work flow more efficient.

Education

BA in Graphic Design

from 2008 to 2012 in the Autonomous University of Coahuila

Diploma in Web Architecture

2013 from the Universidad Tecnológica Latinoamericana en Línea
