EDITOR'S LETTER

In the pursuit of artistic unique-ness, and convinced that the world is full of magical places to be discovered, we proudly dedicate this collection to the "Huichol" or "Wírrárica"; a mexican ancestral culture, whose value is witnessed in history. Their strong customs reflected in the uniqueness, originality and beauty of their hand-crafted products is an astonish mixture between fashion and tradition that have become an enigmatic source of inspiration for fashion designers, curators, decorators and artists.

Refugees in the Sierra Madre Occidental mountains from the spanish conquest and the the current globalization, the huicholes have defended their purity of language, dress and practices since their beginnings. Authentic keepers of the peyote, its sacred vehicle to the gods; for them every social and aesthetic

With the usage of glass beads and painted yarn, they invest several hours to knit and create every part and every detail of the final piece. Within their works, they include colorful images of peyote and the sun, diverse flowers, deers, bull skulls, snakes, among other animals that play an important role in the huichol symbolism and culture itself.

The approach to the region remains almost inaccessible, therefore, to develop this collection, we were supported by native mexican artists, who opened us the path to bring to you handmade skulls, each one inspired in their essential gods, which we hope will increase your joy for collecting and your wish for having something special.

Chile and South Korea agree to deepen bilateral Treaty of Free Trade

Chile and South Korea had held a FTA for 12 years. In 2003, before this agreement, bilateral trade between the two countries reached nearly USD \$1,600 million, and by the end of 2015, this amount reached more than USD \$6,000 million, i.e. an increase of over 300%.

Former President Eduardo Frei said: "Korea has for decades been a strategic partner of Chile in the Asia Pacific. During our stay, we have found that despite the great distance between the two countries, the Chilean culture through our fruits, agro-industrial products, wines and others, is present in the daily life of the Korean people ". The visit of the delegation of Chile, aimed to monitor the political and economic commitments made in the framework of the visit to Santiago by the President of South Korea, Park Geun-hye, in April 2015.

The authorities stressed the political and economic relationship between the two countries and called for the need to realize the commitment to deepen NAFTA. In addition, an economic seminar with the Federation of Korean Industries (FKI for its acronym in English), a strategic partner of Chile in promoting bilateral trade was held in Seoul. Korea is the fourth largest trading partner of Chile and in recent years has climbed globally as a major player in the development of new technologies, innovation and science, elements that have also been identified as key for Chilean development.

WHAT IS REPORTING FROM THE FRONT?

The 15th International Architecture Exhibition, titled *REPORTING FROM THE FRONT*, is curated by Alejandro Aravena and organized by La Biennale di Venezia chaired by Paolo Baratta. The Exhibition takes place from May 28th to November 27th 2016 in the Giardini and the Arsenale venues and in various other venues in Venice. It includes 88 Participants from 37 different countries, as well as 62 National Participations and a selected choice of Collateral Events. The Meetings on Architecture are a programme of events on the themes and case studies presented at the Biennale.

WHAT IS ART DUBAI?

As the world's most global art fair, Art Dubai is the preeminent platform to interact with art from the Middle East and North Africa. Art Dubai has become the essential gathering place for collectors, artists and art professionals from across the region and beyond.

The 11th edition of Art Dubai takes place March 15-18, 2017, at Madinat Jumeirah. Besides the gallery halls, the fair's extensive programme includes commissioned projects and performances, artists' and curators' residencies, educational workshops, the unveiling of works by the winners of the annual Abraaj Group Art Prize and the critically acclaimed Global Art Forum.

HIGHLIGHTS

Architecture Beyond Architects

Aftermath focuses on lived-in architecture when architects are no longer present and users continue daily the architectural experience. The audiovisual representation of the structures invites you to evaluate their quality and observe and listen how they are inhabited and roamed in multiple and changing ways. All of the works selected share a distinctly public character and the ability to integrate the natural, urban and human landscapes, extending architectural functionality.

Educational

Educational activities are offered again for the year 2016, addressed to individuals and groups of students from schools of all levels and grades, from universities and fine arts academies, and to professionals, companies, experts, architecture fans and families. These initiatives aim to actively involve participants in both Guided Tours and Creative Workshops.

HIGHLIGHTS

Global Art Forum 11 : Trading Places

Global Art Forum 11: Trading Places explores the relationship between the economy of goods and ideas that constantly shape who and where we are. From ancient ports to the "New Silk Road" to algorithmic financial markets, the infrastructure of trade is also a geography of imagination and invention. The Forum convenes the most compelling minds from the fields of art, history, economics, philosophy, urbanism, literature and more to tell untold histories and stories of the making and re-making of the world through trade.

Special projects: Ghariba

For this year's edition of the Art Dubai Bar, Moroccan-born, Brooklyn-based artist Meriem Bennani, will create an interactive installation titled *Ghariba/Stranger*, featuring playful video portraits of Moroccan women. The bar area will feature viewing pods for visitors to watch Meriem's videos, inspired by public places that encourage social interactions amongst strangers and reminiscent of beauty salons or entertainment parks.

Responsabilidad Social Infantil (RSI) fomenta el compromiso de la sociedad en favor de la infancia. Ya sea de manera individual o colectiva, todos podemos ayudar.

Con la finalidad de formar niños críticos, autónomos, reflexivos, éticos, con una visión global, el compromiso y la responsabilidad necesarios para construir una mejor condición de vida, RSI considera cinco ejes rectores:

Valores

Derechos infantiles

Seguridad

Salud

Socialización

SÚMATE

RSI convoca a instituciones gubernamentales, empresas, escuelas, organizaciones civiles y ciudadanos a comprometerse a favor de una infancia con valores, derechos, salud, seguridad y habilidades sociales para la vida:

Gobierno

El sector gubernamental es clave para la implementación de los programas que propone RSI, así como para el impulso de nuevas políticas de responsabilidad social infantil a nivel nacional e internacional.

Instituciones Educativas

Las escuelas son un puente hacia la niñez; su participación dentro la difusión e implementación de programas de RSI ayudará a tener una interacción directa con la población infantil.

Empresas

La responsabilidad social empresarial va más allá del cuidado del medio ambiente y la inclusión. Se requieren estrategias de la iniciativa privada que beneficien en materia de educación social infantil.

Asociaciones Civiles y Fundaciones

Las asociaciones y fundaciones cuentan con el grado de experiencia y sensibilidad necesarios para la gestión de programas sociales de gran alcance.

Personalidades

En todo cambio global, el compromiso más importante es el individual. RSI convoca a personalidades destacadas a nivel educativo, cultural, empresarial e institucional; con el fin de impulsar los programas de RSI a nivel mundial.
