

PERSONAL DESCRIPTION

I'm 22 years old, originally from Tuxtla. I studied Digital Art and Animation in the Tecnológico de Monterrey Campus Puebla. Many of my works for certain matters with relation in fine arts were selected to be exhibited on the campus. I love everything about cinematography, creative writing, illustration, graphic design, sculpture and painting with various materials.

I love to help others as much as my possibilities can offer; learning languages and different topics makes me feel more prepared to be able as a cultural learner, because meeting new people with different thoughts from mine, makes me grow more and increase my cosmovision.

I'm always willing to travel as much as possible, and if it's required, I would move to different cities.
