I am a 3D and 2D artist from Pachuca, Hidalgo, México.
I have been working in the industry for the past 2 years.
I have differents skills like lighting with environments, characters. Another skill is rendering with CPU and GPU, cleaning scenes with samples and AOVs and passes.
In compositing 2D and 3D I make color correct, integration, tracking, rotoscoping, masks, cloning, etc.
Also shading with scatter, procedural, textures, etc.
I know and understand the pipeline of a 3D production.
I am positive, dedicated, responsible, passionate, creative, organized.
