Psychology career (2 years)  
Workshops: Music and choral ensembles

■ Instituto Botticelli  
Workshops: Drawing of the human figure  
Renaissance painting

■ Universidad del Valle de México  
Graphic Design career

## BIO

I'm a Mexican graphic designer, illustrator, photographer, self-taught curious person who also enjoys other arts and social sciences. I also studied Renaissance painting and psychology.

My creations inhabit an oneiric universe of totemic and visual poetry worlds, with its own mythical vision, also inspired by ancient cultures.

My traditional and digital Illustration wants to exalt the love for nature and the bond between humans and the animal and vegetal kingdom, inspiring in surrealism, metaphysical painting, automatism, psychedelic art, and others. I also work on commissions, special projects and assemblage / object art pieces.

## SKILLS

Languages:  
Advanced English
